# **Engler Should Help** The Poor Find Work

Mr. John Engler, your parents must have been very rich for you sure don't have any feeling for poor or needy people or you would have made sure that the senators and big government officials' pay wasn't raised so poor people could be able to make enough money to pay our bills and not beg for everything.

# AuSable Valley EMS Board Believed In Ambulance Investment For Welfare Of All

After reading commissioner Smock's letter explaining his three objective reasons regarding his NO vote on the contract with Mercy Hospital, Crawford County and AuSable Valley EMS, I feel compelled to express my opinion. I agree with Mr. Smock's statement "what is the county doing in the ambulance business? It loses money every year and is poorly managed by the county." However, I do not agree with his statement "the ambulance business is a poor investment for Crawford County." The citizens of Crawford County "invested" in the health and welfare of everyone several years ago when they raised enough money in less than three months to purchase a new ambulance. The county board of commissioners in the past has always supported this investment in our ambulance.

In 1989 the county recognized that it lacked the management expertise and the financial resources to continue to support a 24 hour ambulance service. A committee was formed to study the problem and Mercy Hospital became involved in the process. After many months, AuSable Valley EMS, Inc., a non-profit corporation, was organized by Crawford County and Mercy Hospital to operate an ambulance service for the county. In June, 1990, Now the doctor says I have to stop Mercy Hospital and Crawford County

each appointed two persons to serve on the board of directors. These four directors, in turn, appointed three individuals from the community at large, one of which was a physician. This seven member board formed the nucleus to provide sound management, medical knowledge and fiscal responsibility necessary to accomplish the task of providing an efficient ambulance service to the citizens of this county.

The funding to operate this new corporation was to be provided equally by its two founders, Mercy Hospital and Crawford County. Additionally, most of the townships and the City of Grayling, had passed resolutions to contribute funding for an ambulance replacement fund on a per capita basis. This funding plan was purposefully designed to avoid causing an overwhelming financial burden for any single unit of government.

The AuSable Valley EMS board of directors held numerous meeting to discuss bylaws, policies, procedures, management structure, personnel policies, insurance protection, etc. A committee of the AuSable Valley EMS board met to review a budget prepared by professional consultants. The committee, utilizing fiscally sound and conservative assumptions, as well as the County's actual experience over prior years, modified this budget. The

entire board reviewed and adopted that PROPOSED budget with projected revenues of \$223,000, projected expenditures o \$269,300 and projected operating deficit of \$46,300. Therefore, the proposed budget projected a net cost of \$23,150 to Crawford County. Commissioner Smock's objective reason for voting NO was, "The budget presented to the county board was exceedingly high. With final costs added in, it would have exceeded \$300,000 and as a cosponsor, the county, in my opinion would have continued to lose as much, if not more than current ambulance losses of \$50 to \$75 thousand annually." The AuSable Valley EMS board representatives for both Mercy Hospital and Crawford County strongly disagree with his conclusion that the budget which was already "exceedingly high" would have personnel management, accounting increased to over \$100,000 to \$150,000, and therefore, cost the AuSable Valley EMS had a county more than the current system.

objective reason for voting no was the people who represented the hospital. 365 day clause for termination of the county government, and the citizens contract. At a work session held of this community, and who believed Commissioners and representative: business for the WELFARE of ALL. from the AuSable Valley EMS board, Mr. Smock was the only person who voiced an objection to the 365 day requirement. Since it had taken over a

year to formulate the current plan, it was the consensus that this clause protected the three parties involved. Perhaps even more importantly, the dissolution clause would have protected the citizens of Crawford County from rash decisions.

Commissioner Smock's final objective reason for voting no was because AuSable Valley EMS, Inc., existed only on paper. Mr. Smock is right that the AuSable Valley EMS existed only on paper. All that it had was bylaws, a proposed contract and a proposed budget. It had no ambulance. no equipment, no employees, and no money. Therefore, it had no operational manual, no policies, and no job descriptions. It had seven board members with college educations and work experiences in the areas of medicine, business management, taxes, education, and government. The management team with the knowledge Commissioner Smock's second to direct and supervise. It had seven between the entire County Board of in the "investment" of an ambulance

# **Community Support Helped Make** Miss Grayling Pageant Wonderful

These words of thanks are a long time overdue. I am writing this letter as the very proud "Co-Chairperson" of the 1991 Miss Grayling pageant. It is always a challenge to come up with a new "star-studded" theme for the Miss Grayling Pageant each year. This past year's Pageant was an exception! Instead of star-studded it was "Star Spangled" in honor of our local men and women who were in the Middle East as part of "Operation Desert Shield," and it was FANTASTIC. To a lot of old timers that old Tennessee Ernie Ford song "Sixteen Tons" had a lot of meaning. For even in this area men sometimes wound up owing their souls to the company store. Many companies operated on scrip, that means instead of paying a man in cash they gave him scrip that was only good at the company store. That way they could get a man in a real cross haul. He had to buy at the company store and pay the higher price they charged because no one else would take it. A man, even though he worked hard, often found himself having to charge things on an account. **Earnings Report May Be Required** 

People who have earnings from under 65. work during a year in which they receive Social Security benefits, need to be aware of the earnings limits, and what affect they may have on their

benefits.

For people under the age 70, the law limits the amount of money you can earn and still collect all of your Social Security benefits. If you are under 65 all year this year, you can earn up to \$7,080 in 1991 and still collect all your Social Security benefits. For every \$2 you earn over this limit, \$1 will be withheld from your Social

Security benefits. If your are 65 through 69, you can earn up to \$9,720 in 1991 and still collect all of your benefits. However, for every \$3 you earn over this limit, \$1 will be withheld from your benefits.

Only work related earnings count - gross wages, or net selfemployment. Pensions, annuities, interest, and other benefits do not count.

A special monthly rule can be used in the first year you receive Social Security benefits, so that, regardless of your total earnings for the year, you can still receive benefits for any month in which your earnings do not exceed a monthly exempt amount. The 1991 monthly exempt amounts are \$810 for people 65 to 69, and \$590 for people a.m. to 2 p.m.

If you received benefits in 1990 and had earnings from work, you may need to file an annual report of earnings with Social Security by April 15, 1991.

The report is required if you earned more than the 1990 exempt amount (\$9,360 for those 65 to 69, and \$6,840 for people under 65).

Beneficiaries who expect to work and earn more than the exempt amount are required to estimate their earnings to Social Security in advance, so that any needed adjustment to their benefits can be made. This prevents an overpayment in benefits.

It's also important to remember these earnings limits do not apply to anyone age 70 and over, or to anyone receiving a benefit based on disability. Different carnings rules apply to disability beneficiaries, who must report all earnings.

For more information, or to file an annual report of earnings for 1990. contact Social Security toll-free at 1-800-234-5772.

# WHEELS for CONSUMER

Wheels for the Consumer is a political action group, formed in the Ogemaw County area by a group of concerned businessmen and citizens who can no longer bear the pressures being put on the trucking industry, by the elected officials in the Ogemaw County Road Commission.

The strict rules and regulations being enforced on Ogemaw are unprecedented anywhere in the state of Michigan. These regulations are directly responsible for increased costs of transportation of gravel, wood, fuel, farm produce, garbage collections, petroleum, beverage, food, and all products moved by truck in and out of our com-

Local businesses are having trouble getting truckers to come into Ogemaw County for pick up and delivery of products. These businessmen state they just can not afford to send their trucks into Ogemaw County and run the gauntlet of law enforcement. Their trucks are pulled over and held for hours on end for inspections and weight checks. It cost hundreds of dollars for these inconveniences even if nothing is wrong. I will wager that you would hear a cry clear across the state if the Road Commission trucks were diverted from their work in this manner.

It is almost impossible to guess the weight put in a truck if you are loading in the woods or a gravel pit or on the farm. If the load is not dumped squarely on the truck it is almost surely to be a little overweight or a little underweight. The trucker that has four logs or a quarter yard or a few gallons too much, GOTCHA, that will be \$500.00 today and I will be watching you tomorrow!

We have a weighmaster at the State Police Post in West Branch and he does his job. He looks after all the state things, and of course all the traffic on, and off county roads must use state roads so he sees them all, sooner or later. Not good enough! The County Road Commission now has their own weighmaster. This service cost the taxpayer well over \$50,000.00 a year for a job that the State of Michigan is already being paid to do.

Many people do not like trucks, they throw water, dust, slush and stones. They smoke and they smell bad. The slow traffic and obscure your vision, but if you take them off the roads, in a few hours you could not buy food to eat or fuel for your car, all of the stores in your community would close. Your fire departments would close, your hospitals would be useless if you could not get there or be taken there. All the things you take for granted would stop, NO HEAT, NO POWER, NO FOOD, and guess what, you would have no county roads. Maybe we all can work together?

You say the County Road Commission doesn't want their roads damaged! Who grades the shoulder gravel out on the black top so all trucks can throw the loose stones at you? It must be the trucker! Who grades down the

shoulder of the road and brakes off the black top? It must be the trucker! Who runs hundreds of dump trucks during the spring brake-up and disregards the weight laws? Who brakes up the roads? Why it's the trucker of course!! By the way Mr. Road Commissioner who is the trucker?

Did you know that you can load a truck in California and haul it legally across the United States to Ogemaw County and when you get off the expressway you can not deliver your load because you are overweight on our County Roads.

Did you know that you can run your trucks overweight in Ogemaw County if you pay the road commission \$1,000.00 a year?

Did you know that when the county road commission rebuilds or repairs a county road they bill the township in a lump sum and your township board doesn't even know how much they pay for a yard of gravel, and are refused that information?

Did you know that the Ogemaw County Weighmaster has collected hundreds of thousands of dollars in fines from local truckers and these costs are past on to the local consumer in higher prices. A load of product still cost about the same, but the load is not near as big anymore. It's the consumer that pays!

Ogemaw County has the State Police, State Weighmaster, West Branch City Police, County Sheriff's Department and the Ogemaw County Weighmaster. If you listen to your C.B. radio you will hear the warning. Don't get off at the West Branch exit unless it's an emergency!

One of our members decided to do a little trucking on Sunday, the county weighmaster was not working but one of the Ogemaw County Sheriff Deputies saw the truck loaded and naturally assumed he must be trying to get away with something, so he called the weighmaster and made a complaint. They weighed the truck, and he was O.K. and it only took them 2 hours. Seems the Sheriff Department has nothing better to do than scout for the Road Commission Weighmaster. Remember big brother watches on Sunday too!!

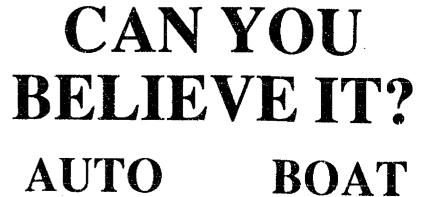

In this country you can only push people so far and then by voice, or by vote there will be some changes. So far voice has not worked, but we will try the voice method for a little while longer.

There will be a public meeting held on March 27, 1991 at 8:00 p.m., at the Ogemaw Heights High School on M-33 a mile and a half north of M-55 in West Branch. At this time the Wheels for the Consumer group will seek the cooperation of the Road Commission, law enforcement, and judicial system in an attempt to reach some mutual agreement in solving these existing differences.

We do not wish to break the State or Local laws, however if we can not make a living because we are regulated to death, by our elected officials. Our system of government allows us to take action to correct the operation being directed against us. So, by VOICE or by VOTE our elected official will represent the people. We do not live in a policed

# **How To Spot Symptoms Of Children's Vision Problems**

Parents and teachers can be more effective than the eye chart test in detecting children's vision problems, says the Michigan Optometric Association. The eye chart test commonly used in schools measures only how well a child can see at a distance; other eye and vision conditions can remain undetected.

The optometric association encourages adults to watch for behavioral clues that may indicate vision problems in children. These include:

- Dislike or avoidance of close work;
- Short attention span for the child's age;
- •Excessive blinking or rubbing of the eyes; •Difficulty going up and down stairs, throwing or catching a ball,
- buttoning clothes or tying shoes; •Using a finger or marker to guide the eyes when reading;
- Saying words aloud or moving the lips when reading;
- •Handwriting which becomes smaller and crowded or inconsistent in

Vision perception problems are the most difficult to detect yet they can seriously hamper a child's ability to learn, causing below-average performance even in children with above average intelligence. The Michigan Optometric Association recommends an annual eye examination to identify vision conditions and eye diseases. The first eye examination is recommended at age three, unless symptoms surface earlier.

Treatments provided by today's optometrists include prescription eyeglasses, contact lenses, vision therapy, and low vision devices for the partially sighted.

In addition to the different place ribbons and prizes awarded, special recognition awards were given to two Grayling Middle School entries and medallions were given to students from Mrs. Helen Nicholas' second grade class for their papier mache Bald Eagle class project.

Nearly a dozen judges spent hours Friday, March 15, completing the monumental task of selecting the winning projects. Originality, neatness, follow through of the project's scientific theme, and the project's written report were a few of the criteria used to judge each entry. The criteria for entries from students from kindergarten through fourth grade differed from those used to judge the entries fifth through twelfth grades. There were so many entries from the Grayling Middle School students that the judges decided to separate the entries into two divisions, fifth and sixth grades and seventh and eighth grades.

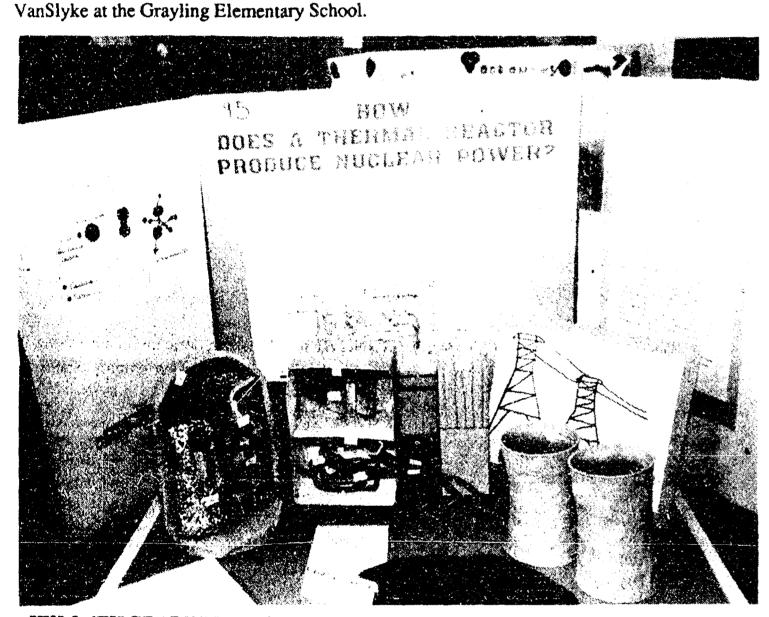

First place winners received prizes and blue ribbons.

The Crawford County Fair Association would like to remind everyone who had a display in this year's Science Fair may also enter it in the Crawford County Fair. The fair this year is July 17th - 21st.

Entry forms may be found in the Crawford County Fair Premium book, which will be available in early May.

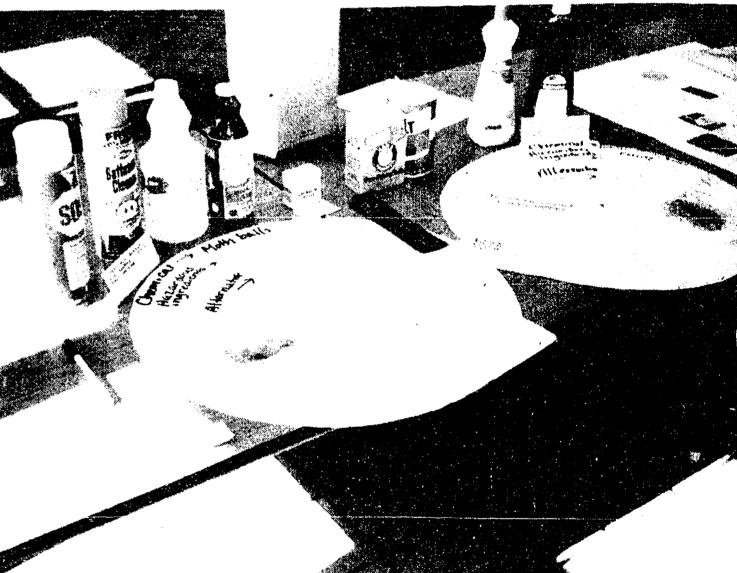

3RD & 4TH GRADE DIVISION—Jessica Becks won the third and fourth grade division with her entry entitled, "What is Humidity & How is it Measured." Jessica is a fourth grade student of Mr. Carl Hatfield at the Grayling Elementary School.

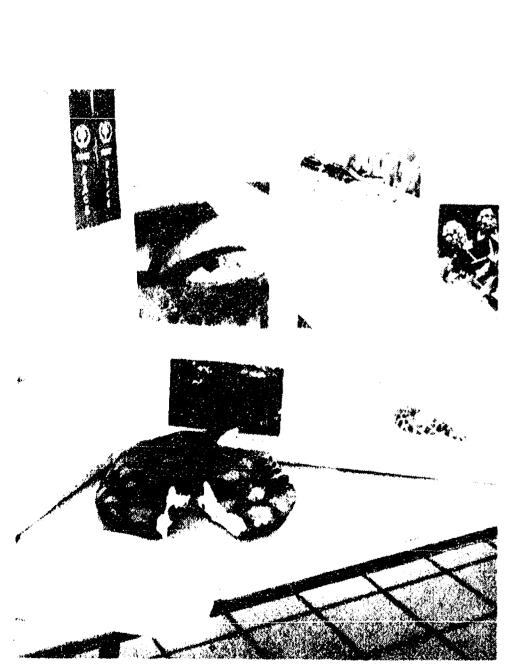

K-2 GRADE DIVISION—Second grader, Afawna VerWys, won first place in the kindergarten,

first, and second grade division with her "Fish In A Bowl" entry. Afawna is a student of Mrs. Alice

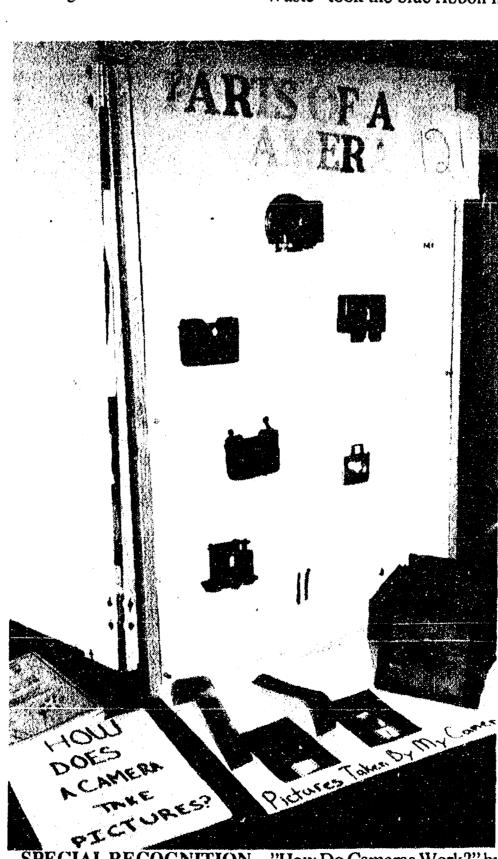

5TH & 6TH GRADE DIVISION—Annie Becks took the blue ribbon in the fifth and sixth grade division with her explanation of "Nuclear Power." Annie is in the sixth grade.

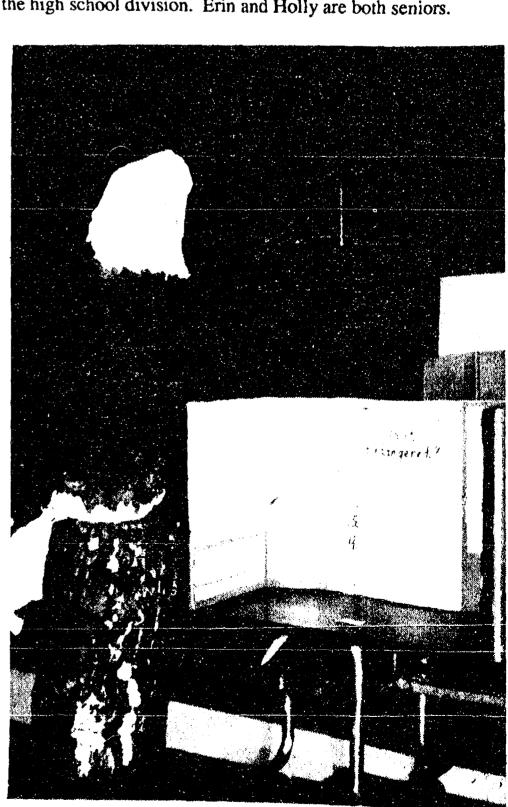

HIGH SCHOOL DIVISION—Erin Bindschatel and Holly Shippy's entry entitled, "Hazardous Waste" took the blue ribbon in the high school division. Erin and Holly are both seniors.

7TH & 8TH GRADE DIVISION—Martin Kroell and Chris Klee took first place in the seventh and eighth grade division with their project entitled, "What is a Snake?" Martin and Chris are in the seventh grade.

SPECIAL RECOGNITION—"How Do Cameras Work?" by Chris Floriano also received a special recognition award. Chris' pin-hole camera and the pictures taken with the cardboard box were excellent. Chris is in Mrs. Ellen Thompson's fifth grade.

BIG BIRD—Mrs. Helen Nicholas' second grade students made this papier mache bald eagle as their science fair class project. Only individual and team entries were eligible for ribbons, but the class was given a special framed certificate of merit to hang in their classroom and each student received a medallion.

In The Eyes Of A Crazy Man

As I walked into the school I saw the familiar faces of my friends and buddies. But today something was different. No hello's, hi's, or even a nod of the head. I walked down the hall to my locker.

"Hey Bob Bobish Face, you look awful."

"Yeh, after what happened to you and the way you look I'm surprised your even gonna come to school."

Two of my faithful companions, jerks that's what they are. They haven't got a care for anybody else in this world, but they will care. Yes, I'll see to it that Joshuwa and his buddy will care. They don't think I remember how they turned the whole school follow him." against me. I used to control it. Now they ruined everything. They will pay for I remember all too clearly.

"O.K. Hey w-what are you doing?" "We're helping you out to the car." "Feels like your d-dragging me." "Yeh, well we're just gonna go for a little ride."

"Okay Bob just drive down this hill and you'll be home, but remember be careful of all the curves and bumps."

"Hey, I've got this d-driving stuff ppretty easy."

"Woa . . cool man." "Aaahhhhh . . Help. . ." CRASH

"It's so dark out there. When will Joshuwa get home? You know I'm not going to wait forever, Butch."

Yes, when is he going to get here? Is that a car I hear? No nothing. Well,

Click, Slam.

"Hey Joshuwa." "Who said that?"

"It's me from behind the bush. You see this gun? Well, don't move!" "What do you want?"

"I just want the truth Joshuwa. That accident last fall, that was no accident was it?"

"The one with Bob?" "Yeah that's the one. You tried to

kill him didn't you?" "What? No way you're crazy!"

"Tell the truth I've got a gun. Butch get out of the way! I can't shoot." "Joshuwa, honey, dinner's ready."

"Come on Butch let's go."

"Just a minute mom."

Auh maybe next time he won't be so lucky. But I'll have to be more careful I was almost seen.

What perfect timing, Joshuwa inside the house and his buddy cleaning up by the pool. I love it when it's dark outside. It's so much easier to do stuff. It's been awhile since the scene with the gun so nobody's expecting anything. Well here I go.

SPLASH

"What? Who?"

"I come for you to pay the price." "What are you talking about?"

"Murder, or at least the attempt to." "Auh . . . Help . . . Thut. I can't breathe!"

"Frank, buddy what's happening?" I better go. Two against one. It's not fair. They beat me last time but this time it's my revenge. Now let me

Some men screamed and some men cried Some men lived and some men died On the battle fields of that day Some wore blue and some wore gray Jeff Davis called the boys to fight To protect what they saw as a right Abe Lincoln called the boys to war So that we would remain one nation shore to shore On the fields of battle many brave men died Some for freedom, some for pride Some men believed man should be free While others believed in slavery Some times brothers served on different sides From a brother's bullet, some men died Johnny Reb fought long and well In this war, a living helf When our country was torn all apart By what men believed with all their heart Many men lived who bore the scars Of their belief in the Stars and Bars The boys who fought in the Union Blue Paid the price of their beliefs too When the war was over and all men were free To enjoy the fruits of liberty They settled the land from shore to shore With OLD GLORY flying high once more So when we see our Flag today Let us remember the blue and gray

The National Humane Education Society has some advice regarding animals eating human food:

Foods that are high in fat and milk can cause vomiting and diarrhea in dogs and cats. Chocolate can be toxic to dogs because it contains theobromine, to which they are particularly sensitive. No animal should ever be given alcohol.

As I write this, it is cold outside. The sub-freezing temperature and the Robin of the spring tobe a milestone, blowing wind combine to produce a wind chill of near zero. But I know that winter is done, except for one of those spring snowstorms that sneak up and bite us just when we are starting to feel a little cocky about the coming activities.

By the end of March two species of birds will be back, proving to me that things are improving.

migratorius) is perhaps the most familiar bird in the state. I doubt there is anyone over three years old in northern Michigan who cannot identify this bird. Found throughout North America, the Robin is a seasonal resident locally, with a few individuals wintering in the southern part of the state. Seen mostly in yards feeding on worms, Robins also eat seeds and berries.

While most people consider the first I get much more excited about seeing the first woodcock (Phlahela minor). An important game bird, the woodcock is also one of the most etjoyable birds to observe as it goes through daily

As soon as it arrives, the male woodcock will begin it breeding activities which consists of twilight flights combined with vocalizations The American Robin (Turdus to attract mates. These begin while there is still snow on the ground and continue into May. If you have never made the effort to observe this behavior, you should. It is one of the primier entertainments offered by

When each new experience springs forth like a jack-inthe-box...and your fondest possessions are toys...and your chief concern is to squeeze out of every hour the last ounce of amusement—then it's fun to be surprised!

But when you've grown too old for toys... when life is laced with serious challenges...when happiness depends on a thousand social, economic and moral decisions—then surprises can be devastating!

It is elementary that our early education must prepare us for the later surprises. The knowledge, habits and skills we acquire must be adequate for meeting the unexpected as readily as the expected. And because religious faith and moral fortitude are our

chief resources in the unheralded crises of adult life, we must nurture their development in our children. Support, encourage, serve God's house in its vital efforts

to mold the character of today's youth—tomorrow's adults.

Because the list of Delinquent tax lands for tax sale advertising must necessarily be made up several months ahead of time in order to get it in the printer's hands, several descriptions are listed in the Crawford County list on which taxes have been paid.

IF YOUR 1988 AND PRIOR YEARS TAXES HAVE BEEN PAID YOUR LAND CANNOT BE SOLD IN THE MAY 7, 1991 TAX SALE.

If your land is listed and you have not paid your delinquent 1988 taxes, the final day to pay them is Monday, May 6, 1991.

We shall be glad to answer any other questions you may have about the tax sale here at the Treasurer's Office.

# Visitor From Sweden On Tuesday February 26, Ulrika

Svenson, an exchange student from the country of Sweden, visited Mr. Hayes' fourth grade class and Mr. Andrus' third grade class. Ulrika talked to the classes about her country, her school and some of the things that teenagers do in Sweden. The students also had a lot of questions for her to answer as well. The students really enjoyed learning about Sweden and having Ulrika visit them. Ulrika lives in Gaylord with her host mother Diane Williams. Anyone interested in having John Smock at WQON radio.
